

Avanti West Coast Class 805/807 Reskin Pack

Requirements:

Armstrong Powerhouse Class 800-803 Enhancement Pack

DTG East Coast Main Line London to Peterborough

Installation:

- Copy the "Assets" folder into your Railworks folder (This can be found by going to your Steam Library, right clicking on Train Simulator then Manage - Browse local files)
- Run the "InstallAWC805-807.bat" located in Railworks/Assets. (Do not run as Administrator)

Important note, due to the way the AP EP is set up, the coach numbers on 10 car Class 805s and the Class 807 may not be entirely accurate and some are missing on the Class 807.

At the time of release, no class 807s have been put into the Avanti livery, so I've done what I think the livery will look like for them, but once pictures have come around of an 807 in the livery, I will make any updates needed.

So, onto what's included

Liveries

Hitachi

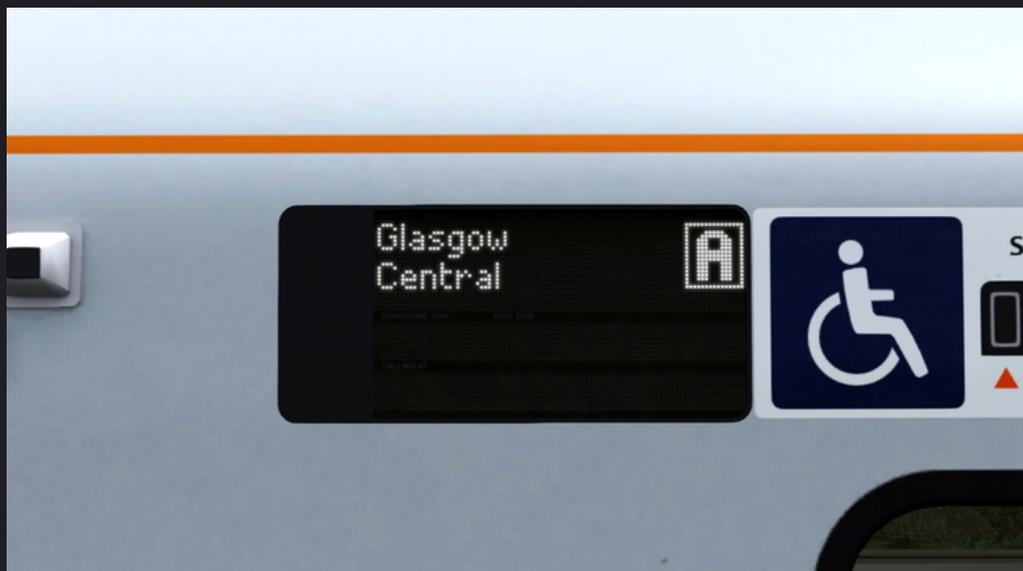

Avanti West Coast

Destinations

Included with this pack are a set of destinations, they are used in the same way as the AP EP (Scrolling through F7/F8 or set via unit number) Destination List below.

Passenger View

Included extras

- Correctly sized and positioned destination screens.
- Roof recoloured to white as per the real units.
- A vast amount of child objects/decals.

Anyway, I think that is all, I hope you enjoy using these reskins and the hours of painful effort that has gone into making them!
